Subject: TCE prep meeting with County Health
Start Date/Time: Tue 4/1/2014 5:00:00 PM
End Date/Time: Tue 4/1/2014 5:45:00 PM

Hi All,

I know there are lots of TCE/VI meetings being scheduled, but wanted to have a quick planning/prep meeting for our meeting with the Santa Clara County Public Health Dept on Wed April 23 3 -5 pm in San Jose. Even if you are unable to participate in the April 23 meeting itself, we would still like to get your input. Please confirm your availability to prep for and participate in the County meeting.

The purpose of the meeting is for EPA to share information, specifically regarding the TCE short-term health effects, EPA's prompt response action levels, ongoing and planned VI investigations in Santa Clara County, and to discuss coordination efforts of any necessary prompt response (including non-residential commercial buildings).

County Health is expecting a ppt presentation on TCE and VI concerns, so let's discuss prep of those slides (what we have, what we need).

Thanks,

Alana
